RE: *Change to the amount of overlay*

At the September 4 meeting, the Select Board approved a tax rate of \$7.91 which would generate an overlay amount of \$132,837. That was based on a total assessed value of \$1,465,581,576. Upon review, we discovered an error in determining the taxable real estate value. The correction resulted in a reduction in the assessed value of approximately \$11 million. The total assessed value is \$1,454,596,426. As a result, based on the approved tax rate of \$7.91 the overlay amount would be reduced from \$132, 837 to \$45,945.

Since the amount of overlay will be different from what the Select Board voted on, the Select Board needs to vote on a new overlay amount. Staff had recommended a larger overlay amount since at the selected tax rate it would provide certainty that we would have sufficient funds to cover any abatements, errors, or adjustments without needing to use any Undesignated Fund Balance. We also would likely have some funds left to help increase the Undesignated Fund Balance.

Please see the attached spreadsheets detailing the corrected tax rate calculation, the prior year comparison, and tax rate-overlay chart. The \$7.91 tax rate approved by the Select Board will generate a modest overlay of \$45,945. Barring a high number of requests for abatements, that amount will likely be sufficient, so you will not have to change the tax rate.

As a result of this error, we are reviewing our protocols so we will have a system in place to prevent such errors from occurring in the future.
