Maryann -

My neighbor June Saraceno informed me that a new packet had been uploaded for the May 26th planning board meeting. While reviewing the site plan for 239 Shore Road, I noticed the plan still did not adequately address buffering, setbacks or landscaping to be compliant with zoning ordinances,. I have edited the site plan for 239 Shore Road to illustrate what would make the site compliant with zoning ordinances. I would like to have this shared with planning board members and included in the materials for the meeting.

Would you please confirm that this will be included as I will address this during the public comment period?

Thank you!

Gregory Long
240 Shore Road
