

WARRANT FOR ANNUAL MEETING

OF THE  
TOWN OF OGUNQUIT

TO: WILLIAM P. HANCOCK, JR., Chief of Police in the Town of  
Ogunquit, County of York and State of Maine:

GREETINGS:

In the name of the State of Maine, you are hereby requested to notify and warn the Inhabitants of the Town of Ogunquit, qualified by law to vote in Town affairs, to meet in the Dunaway Community Center in said Town on Saturday, the seventh day of April, 1990 A.D. at nine o'clock in the morning until six o'clock in the evening to vote by secret ballot on Articles 1 and 2; and to notify and warn said voters to meet in the same place in said Town on Monday, the ninth day of April, 1990 A.D. at seven o'clock in the evening, then and there to act on Articles 3 through 62.

ARTICLE 1: To elect a Moderator to preside at said Meeting.

ARTICLE 2: To elect the following Officers for the terms so noted or until such time as a successor is elected and qualified:

- A. Two (2) Selectmen: Each for a two (2) year term to commence at the conclusion of the Annual Town Meeting; term ending Annual Town Meeting 1992;
- B. Two (2) Members to the Wells-Ogunquit Community School District - One (1) term ending June, 1991 and the second term ending June, 1993;
- C. Two (2) Members to the Budget Committee. Each for a two (2) year term to commence at the conclusion of the Annual Town Meeting; term ending Annual Town Meeting 1993.

ARTICLE 3: Shall the Town vote to adopt the following revision to the Ogunquit Zoning Ordinance?

Chapter II, Section VIII - MOBILE HOME PARKS

PREAMBLE

To allow conformance with State standards governing mobile home parks, and to provide an environmentally appropriate area of the Town in which they are a permitted use, the following provisions shall be adopted to apply to those areas of the Town of Ogunquit described as follows:

Those portions of the RRD-1 and RRD-2 bounded by the Turnpike, Berwick Road, the RD and GBD on the east, and the Ogunquit River.

Chapter I, Section III of the Zoning Ordinance, definition of "Mobile Home Park", is repealed and the following enacted in its place:

Mobile Home Park: A parcel of land under unified ownership designed or used to accommodate three (3) or more manufactured housing units.

Chapter I, Section III of the Zoning Ordinance, definition of "Manufactured Housing (Mobile Homes)", is repealed and the following enacted in its place:

Manufactured Housing Unit: Structures, transportable in one or two sections, which were constructed in a manufacturing facility and transported to a building site, and designed to be used as dwellings when connected to the required utilities, including the plumbing, heating, air conditioning and electrical systems contained therein.

Chapter II, Section VI, Section C of the Zoning Ordinance is repealed and replaced with a new section in Chapter II as follows:

SECTION VIII MOBILE HOME PARKS

A. LICENSES

No person, firm or corporation shall establish or maintain a mobile home park within the Town without a license issued in conformity with the provisions of this Code. A mobile home park in existence prior to the adoption of this Code may be enlarged only if the extension complies with the Code.

- 1) Application for a mobile home park license shall be filed with the Code Enforcement Officer who shall, in turn, present said application to the Planning Board for review in accordance with this Article except that applications for license renewals are not subject to Planning Board review. The Planning Board shall review plans of the proposal and approve, approve with conditions, or deny approval of the proposal on the basis of standards contained herein and contained in the Subdivision Ordinance of the Town. The Planning Board shall inform the Code Enforcement Officer of its decision in writing and he shall act on the application.
- 2) Each application for a license or renewal thereof shall be accompanied by a fee as established by the Board of Selectmen for a mobile home park designed for the accommodation of no more than ten (10) homes and an additional fee as established by the Board of Selectmen for each additional home in excess thereof. Each such license shall expire on the first day of April next following the date of issuance. Before any license shall be renewed, the premises shall be subject to inspection by the Health Officer and Code Enforcement Officer. If they shall find all requirements of this and other Town and State Ordinances and Laws have been complied with, they shall certify the same.
- 3) Such licenses shall be conspicuously posted on the premises at all times and shall not be transferable.
- 4) The Code Enforcement Officer is hereby authorized to revoke any license issued pursuant to the terms of this Code if after due investigation it is determined that the holder thereof has violated any of the provisions of this Ordinance or any other applicable code, law or statute.

B. DESIGN AND PERFORMANCE STANDARDS

Except as stipulated below, mobile home parks shall meet all the requirements for a residential subdivision, and shall conform to all applicable State laws and local ordinances or regulations. Where the provisions of this Article conflict with specific provisions of this Ordinance or the Ogunquit Subdivision ordinance, the provisions of this Article shall prevail.

1) Lot Area and Lot Width Requirements.

Notwithstanding the dimensional requirements in Chapter I, Sections VIII and IX of this Ordinance, lots in a mobile home park shall meet the following lot area and lot width requirements:

a) Lots served by public sewer:

Min. lot area:	6,500 square feet
Min. lot width:	50 feet

- b) Lots served by individual subsurface waste water disposal systems:
  - Min. lot area: 20,000 square feet
  - Min. lot width: 100 feet
- c) Lots served by a central subsurface waste water disposal system approved by the Maine Department of Human Services:
  - Min. lot area: 12,000 square feet
  - Min. lot width: 75 feet
- d) The overall density of a park served by any subsurface waste water disposal system shall not exceed one (1) dwelling unit per 20,000 square feet of total park area.
- e) Lots located within any shoreland zoning district shall meet the lot area, lot width and shore frontage requirements for that district.

The Planning Board may waive or vary the minimum lot width requirements by applying the same standards for variances and waivers as are contained in Article 12 of the Subdivision Ordinance.

2) Unit Setback Requirements.

- a) On lots 10,000 square feet in area or larger, structures shall not be located less than 15 feet from any boundary lines of an individual lot. On lots less than 10,000 square feet in area, structures shall not be located less than 10 feet from any boundary lines of an individual lot.
- b) On lots which abut a public way either within the park or adjacent to the park, or on lots which are located within a shoreland zoning district, structures shall meet the front setback and setback from high water table mark requirements, respectively, applicable to the zone in which the park is located as required by Chapter I of this Ordinance.

3) Screening and Buffering.

Parks shall be required to have a buffer strip consisting of a landscaped area along the boundaries with any lots which, at the time the park is developed, are:

- a) undeveloped and in a zone which permits residential development with an overall density of no greater than half the density of the park, or
- b) developed residentially with an overall density which is half the density of the park or less.

The buffer strip must be at least 50 feet in width and shall contain no structures or streets. Within the first 25 feet of the buffer strip, as measured from the exterior boundary, a green strip planted with appropriate shrubbery shall be provided and maintained.

4) Open space Reservation for Parks Served by Public Sewer.

An area no less than ten percent (10%) of the total area of those lots which are 10,000 square feet or less shall be reserved as open space. No more than half of the reserved open space shall have slopes greater

than five percent (5%). The reserved open space shall not be located on poorly or very poorly drained soils, and shall be accessible directly from roads within the park.

5 ) Road Design, Circulation, and Traffic Impacts.

Streets within a park shall be designed by a professional engineer who is registered in the State of Maine.

- a) Streets which the applicant proposes to dedicate as public ways shall be designed and constructed in accordance with the standards for streets in the Ogunquit Subdivision Ordinance.
- b) Streets which the applicant proposes to remain private ways shall be designed and constructed in accordance with the standards of the State of Maine Manufactured Housing Board and shall meet the following minimum geometric design standards:
  - (1) Minimum right-of-way width: 23 feet
  - (2) Minimum width of paved way: 20 feet
- c) Any mobile home park expected to generate average daily traffic of 200 trips per day or more shall have at least two (2) street connections with the same or different existing public streets. These street connections shall be separated by a minimum horizontal distance of 125 feet. Any street within a park with an average daily traffic of 200 trips or more shall have at least two (2) street connections leading to existing public streets, other streets within the park, or other streets shown on an approved subdivision plan.
- d) The Planning Board may require that no individual lot within a park shall have direct vehicular access onto an existing public street if the traffic impact analysis indicates that such direct access would pose a traffic hazard.
- e) The intersection of any street within a park and an existing public street shall meet the following standards:
  - (1) Angle of intersection. The desired angle of intersection shall be 90°. The minimum angle of intersection shall be 75°.
  - (2) Maximum Grade Within 75 Feet of Intersection. The maximum permissible grade within 75 feet of the intersection shall be two percent (2%).
  - (3) Minimum Sight Distance. A minimum sight distance of 10 feet for every mile per hour of posted speed limit on the existing road shall be provided. Sight distances shall be measured from the driver's seat of a vehicle that is 10 feet behind the curb or edge of shoulder line with the height of the eye 3 1/2 feet above the pavement and the height of object 4 1/4 feet.
  - (4) Distance From Other Intersections. The centerline of any street within a park intersecting an existing public street shall be no less than 125 feet from the centerline of any other street intersecting that public street.

- f) The application shall contain an estimate of the average daily traffic projected to be generated by the park. Estimates of traffic generation shall be based on the Trip Generation Manual, 1987 edition, published by the Institute of Transportation Engineers. If the park is projected to generate more than 400 vehicle trip ends per day, the application shall also include a traffic impact analysis, by a registered professional engineer with experience in transportation engineering.
- 6) No development or subdivision which is approved under this Article as a mobile home park may be converted to another use without the approval of the Planning Board, and without meeting the appropriate lot size, lot width, setback and other requirements. The plan to be recorded at the Registry of Deeds and filed with the municipality shall include any notes or conditions of approval as well as the following restrictions:
- a) The land within the park shall remain in a unified ownership and the fee to lots or portions of lots shall not be transferred.
  - b) No dwelling unit other than a manufactured housing unit shall be located within the park.

ARTICLE 4: Shall the Town vote to adopt the following amendment to the Ogunquit Zoning Ordinance?

Chapter II - GENERAL STANDARDS OF PERFORMANCE  
Section VIII - DESIGN REVIEW  
Subsection A - PURPOSE

1. GENERAL PURPOSE

The business districts of the Town of Ogunquit include mixed residential and business uses consisting predominantly of buildings constructed before 1930. They include many significant historic buildings which contribute a variety of architectural styles, other buildings which contribute to the historical setting, and a number of contemporary buildings. The purpose of this Section is to promote educational, cultural, economic and general welfare of the Town of Ogunquit, to provide for the protection and preservation of buildings, structures and places of historic value, and to promote design which is compatible with the present character of Ogunquit.

2. SPECIFIC INTENT

It is the specific intent of this Section to:

- a. encourage the continued use of existing historically or architecturally important buildings and those which contribute to the character of the District and discourage their demolition and removal;
- b. prevent inappropriate alterations of buildings of historic value;
- c. assure that new buildings are designed and built in a manner compatible with the character of the District in terms of scale and visual effect, and
- d. assure that changes to contemporary buildings and new construction do not detract from adjacent historic buildings.

SUBSECTION B. DEFINITIONS

Notwithstanding the definitions in Chapter I, Section III of this Ordinance, for purposes of this Section the following terms shall have the following meanings:

Architectural Significance.

A building or structure shall be deemed to have "architectural significance" if it embodies distinctive characteristics of a type-period or method of construction, represents the work of a master architect or builder, or possesses high artistic values.

Board.

Unless otherwise specified, "Board" shall mean the Planning Board.

Building.

Wherever the word "building" is used, it also refers to all structures and places (i.e., cemeteries, parks, etc.) which may or may not have buildings located on them and which are classified under this Section.

District.

In this Section, "District" refers to the Downtown Business District, the General Business District, the Limited Business District and the Perkins Cove Limited Business District.

Historical Significance.

A building or structure shall be deemed to have "historical significance" if it is associated with events which have contributed to the formation and development of the Town of Ogunquit, if it is associated with the lives of people who have been important to the community, or if it has made a contribution to the broader patterns of our common history.

Material Change.

"Material change" means a modification to the architectural style, general design and general arrangement of the exterior of a building or structure, including the kind and texture of the building materials and the type and style of all windows, doors, light fixtures, other appurtenant fixtures and other features such as walks, fences, driveways and parking areas. In addition, all activities that affect the exterior and require a building permit are also included in this definition.

Neighborhood Significance.

A building shall be deemed to have "neighborhood significance" if it contributes to the creation of a physical setting representing a period important in the evolution of the Town. It is understood that the physical setting, which is composed of buildings, landscape features and open space, and other natural and architectural features, can transcend the sum of its parts in creating a sense of history.

Some examples of situations in which a building would have neighborhood significance are: it is one of a group of similar buildings constructed and/or designed by an individual important in Ogunquit history; it is a compatible element in a group of buildings of similar or equally important significant architectural styles; its location (e.g., on a corner lot, on a rise of land, on a curve, on a large parcel of land, as the first building to visually introduce an important group of buildings) makes it an important element in the neighborhood; its size gives it a dominant place in the neighborhood.

Reconstruciton.

"Reconstruction" means the rebuilding, or constructing again, of a building or part of a building. The reconstruction may or may not be a return to the original design of the building.

Rehabilitation.

"Rehabilitation" means the upgrading of a building, previously in a dilapidated or substandard condition, for human habitation or use. Rehabilitation does not necessarily retain the building's original architectural features.

Restoration.

"Restoration" means the replication or reconstruction of a building's original architectural features. Restoration usually describes the techniques of preserving historic buildings.

Violation.

It shall be deemed a "violation" of this Section if an applicant fails to comply with the plans and conditions as approved by the Planning Board when it issued the Design Certificate, or if any activity listed in Subsection C is carried on without first obtaining a Design Certificate which permits the activity to proceed.

Visually Compatible and Complementary.

It is not the intent that all buildings in a neighborhood should look the same, but that a mix of styles, sizes, etc. that blend together well shall be allowed and that facade designs that pre-date 1930 be encouraged, although not necessarily required.

SUBSECTION C. DESIGN CERTIFICATE

In considering applications for permits, the Planning Board shall use the guidelines appearing in Subsection F of this Section. A Design Certificate shall be required before a permit to proceed is issued for any of the following:

1. any demolition of a building within the District;
2. any moving of a building within the District;
3. any material change in the exterior appearance of existing buildings within the District by additions, reconstruction or alteration;
4. any new construction of a building or accessory building or structure subject to view from a public street or public right-of-way within the District;
5. any material change in existing walls, fences, driveways and parking areas or construction of new walls, fences, driveways and parking areas if subject to view from a public street or public right-of-way within the District;
6. any addition, removal, or material change of any type of lighting if subject to view from a public street or public right-of-way within the District;
7. changes to existing signage or additional signage on buildings or sites within the District.

SUBSECTION D. PLANNING BOARD REVIEW

1. The Board may from time to time issue publications describing design guidelines which further the purposes of this Section.
2. The Board shall have the right to retain the services of professional help required in carrying out the purposes of this Section. Any expenses incurred in the retention of such professional assistance shall be borne by the applicant, not to exceed one half ( $\frac{1}{2}$ ) of one percent (0.5%) of the cost of the project, or \$1,000 whichever is less.

3. The Board shall, at its regular meetings, review applications for Design Certificates. All meetings of the Board shall be open to the public and a public record shall be kept of the Board's resolutions and decisions.
4. The Board may hold a public hearing on an application. Notice requirements shall be as follows:
  - a. If the Board decides to hold a public hearing prior to making a decision on a design review application, the Town Manager shall notify, by Certified Mail, the applicant and the owners of all abutting properties. Abutting properties shall include those directly across a public right-of-way including waterways. Notification shall include the nature of the application, and the time and place of the public hearing. Notice of the hearing shall also be published in a newspaper of general circulation and posted in at least three (3) public places within the Town. All notifications must precede the public hearing by at least seven (7) business days.
  - b. For the purpose of this Section, the owners of property should be considered to be the parties listed by the Tax Assessor for the Town as those against whom taxes are assessed. Failure of any property owner to receive a notice of public hearing shall not necessitate another hearing or invalidate any action by the Board.
  - c. The Code Enforcement Officer, or his designated assistant, shall attend all hearings, and shall present to the Board all plans, photographs or other material he deems appropriate for an understanding of the application.

SUBSECTION E. ACTION ON APPLICATIONS FOR DESIGN CERTIFICATE

1. The application for a Design Certificate shall be made in the Town Office on forms provided therefor. Each application shall be accompanied by such sketches, drawings, photographs, descriptions or other information showing the proposed alterations, additions, changes or new construction as may be required for the Board to make a decision.
2. The Code Enforcement Officer shall transmit the application for a Design Certificate, together with the supporting information and material, to the Board at its next meeting for examination and approval. The Board shall act upon the application within forty-five (45) days of its receipt from the Code Enforcement Officer. If the Board does not act within forty-five (45) days, the application is deemed to be approved and a Design Certificate shall be issued.
3. Nothing herein shall prohibit an extension of time, by a formal action for a specific period of time, for review and approval of the application if the parties have mutually agreed that more information or discussion is required. Unless the Board disapproves an application, a Design Certificate shall be issued with or without conditions. When the Board disapproves an application, its reasons shall be issued to the applicant in written form.
4. If an activity regulated by this Section also requires a building permit, the permit shall not be issued until the Design Certificate is granted.
5. The Board may require an irrevocable letter of credit or performance bond prior to the issuance of a building permit.

## SUBSECTION F. DESIGN GUIDELINES

### 1. BUILDINGS EXISTING IN 1930

- a. Moving, Reconstructing, Altering or Maintaining Buildings Existing in 1930. Any building, or any part or appurtenance thereof, including but not limited to walls, fences, light fixtures, steps, driveways, parking areas and paving shall be moved, reconstructed, altered or maintained only in a manner that will preserve its historical, architectural or neighborhood significance. When making that determination, recognition shall be given to the design and placement of buildings previously on the site and their past relationship with surrounding buildings.
- b. Demolition or Removal of Buildings Existing in 1930. Should a property owner want to demolish or remove a building existing in 1930, a four (4) month notice of the proposed demolition or removal shall be given by the owner to the Code Enforcement Officer before a demolition or removal permit is issued. The owner of the affected building shall, in addition, cause notice to be published in a newspaper of general circulation at least three (3) times prior to demolition or removal. The first notice shall be published no later than fifteen (15) days after the application for a permit for demolition or removal is filed and the final notice shall be published approximately fifteen (15) days prior to the date of demolition or removal. The purpose of this Section is to preserve buildings existing in 1930 which are important to the architectural, historical and neighborhood significance of the Town, and to afford the Town, interested persons, historical societies or organizations the opportunity to acquire or to arrange for preservation of such buildings.
- c. Negotiation to Avoid Demolition. During this four (4) month period, the Board may negotiate with the owner of the property and with any other parties in an effort to find a means of preserving the property. Such negotiations may include relocation to a new site, recommendation for an historic easement pursuant to Subsection I of this Section, or inducements to interested third parties to purchase the property for the purpose of preserving it.

### 2. BUILDINGS WHICH DID NOT EXIST IN 1930

The construction, reconstruction, alteration or moving of any building and its appurtenances built after 1930 shall be generally of such design, size, building material, texture, and location on the lot as will be compatible with other buildings in the District and particularly those in existence in 1930.

The intent of this Section is not to require that a contemporary or post-1930 building be constructed or altered to meet a specific architectural style (e.g., colonial, federal, etc.). Rather, compatibility with other buildings shall be determined by factors such as: type and style of buildings previously on the parcel, historical design of the buildings and relationship with surrounding buildings.

### 3. DESIGN GUIDELINES FOR ALL BUILDINGS WITHIN THE DISTRICT

Newly constructed buildings, reconstructed buildings and existing buildings, as well as their appurtenances, which have been altered, repaired or moved, shall be visually compatible with the buildings, squares and places to which they are visually related, and particularly with nearby or adjacent buildings in existence in 1930, in terms of the following factors:

- a. Scale of the Building. The scale of a building depends on its overall size, its mass in relationship to the open space around it, and

the sizes of its doors, windows, porches and balconies. The scale gives a building "presence", that is, it makes it seem big or small, awkward or graceful, overpowering or unimportant. The scale of a building should be visually compatible with its site and neighborhood.

- b. Height. A sudden, dramatic change in building height can have a jarring effect on the streetscape, i.e., the way the whole street looks. For example, a tall building can shade its neighbors or the street. The height of a building should be visually compatible with the heights of the buildings in the neighborhood.
- c. Proportion of Building's Front Facade. The "first impression" a building gives is that of its front facade, the side of the building which faces the most frequently used public way. The relationship of the width to the height of the front facade should be visually compatible with that of its neighbors.
- d. Relationship of Solids to Voids in Front Facades. When one looks at any facade of a building, one sees openings such as doors or windows (voids) in the wall surface (solid). Usually the voids appear as dark areas, like holes, in the solid and are quite noticeable, setting up a pattern or rhythm. The pattern of solids and voids in the front facade of a new or altered building should be visually compatible with that of its neighbors.
- e. Proportions of Openings Within the Facility. Windows and doors come in a variety of shapes and sizes; even rectangular window and door openings can appear quite different depending on their dimensions. The relationship of the height of windows and doors to their width should be visually compatible with the architectural style of the building and with that of its neighbors.
- f. Roof Shapes. A roof can have a dramatic impact on the appearance of a building. The shape and proportion of the roof should be visually compatible with the architectural style of the building and with those of neighboring buildings.
- g. Relationship of Facade Materials. The facades of a building are what gives it character, and the character varies depending on the materials of which the facades are made and their texture. In Ogunquit, many different materials are used on facades - clapboards, shingles, patterned shingles, brick - depending on the architectural style of the building. The facades of a building, particularly the front facade, should be visually compatible with those of other buildings around it.
- h. Relationship of Spaces to Buildings on Streets. The building itself is not the only thing one sees when one looks at it; one is also aware of the space around the building. Looking along a street, the buildings and open spaces set up a rhythm. The rhythm of spaces to buildings should be considered when determining visual compatibility, whether it is between buildings or between a building and the street.
- i. Site Features. The size, placement and materials of walls, fences, signs, driveways and parking areas may have a visual impact on a building. These features should be visually compatible with the building and neighboring buildings.

- j. Architectural, Historical or Neighborhood Significance. These factors shall be considered with regard to buildings existing in 1930. The reconstruction, alteration, maintaining or moving of such buildings should be done in such a manner as to preserve their architectural, historical or neighborhood significance. The construction, reconstruction, maintenance or moving of post-1930 buildings should be done in a manner which is visually compatible with the architectural, historical or neighborhood significance of buildings existing in 1930.

#### SUBSECTION G. APPEALS

Appeals from a decision of the Board may be taken to the Maine Superior Court in accordance with Rule 80-B, Maine Rules of Civil Procedure.

#### SUBSECTION H. SECTION REVIEW

On or about the second anniversary of the passage of the Design Review Section, the Planning Board shall conduct a review of its effectiveness and submit amendments or other changes if appropriate. At that time, the Planning Board shall determine if it wishes to continue a biannual review of the Section.

#### SUBSECTION I. ACQUISITION OF HISTORIC EASEMENTS

The Town may acquire by purchase or donation, historic easements in any area within its jurisdiction wherever and to the extent that the Board of Selectmen, upon the recommendation of the Board, determines that the acquisition will be in the public interest. For the purpose of this Section, the term "historic easement" means any easement, restriction, covenant or condition running with the land, designed to preserve, maintain or enhance all or part of the existing state of places of historic architectural, or neighborhood significance.

#### SUBSECTION J. ORDINARY MAINTENANCE ALLOWED: PUBLIC SAFETY

1. Nothing in this Section shall be construed to prevent the ordinary maintenance or repair of any exterior feature in the District which does not involve a change in design, material, or outer appearance.
2. Nothing in this Section shall prevent the construction, reconstruction, alteration, restoration or demolition of any such feature which the Code Enforcement Officer shall certify is required by the public safety because of an unsafe or dangerous condition.

#### SUBSECTION K. ENFORCEMENT

1. The Code Enforcement Officer shall inspect, from time to time, those buildings, structures and any appurtenances for which a Design Certificate has been issued to ensure compliance with the terms contained in the Certificate.
2. A Design Certificate secured under the provisions of this Section shall expire if the work is not commenced within one (1) year of the date on which it is granted or if the work is not completed within two (2) years of the date on which the Certificate is granted. An extension of one (1) year from either deadline may be granted by the Board.

#### SUBSECTION L. PENALTIES

1. Any person who violates any provision of this Section shall be guilty of a misdemeanor and shall be punished by a fine of not less than One Hundred Dollars (\$100) and not more than One Thousand Dollars (\$1,000).

2. For the purpose of this Section, each day during which there exists any violation of any provision herein shall constitute a separate violation of such provision.

#### SUBSECTION M. INJUNCTIONS

Wherever any person has engaged in or is about to engage in any act or practice which constitutes or will constitute a violation of this Section, the Code Enforcement Officer shall make application to the District Court for an order enjoining such act or practice, or requiring such person to refrain from such prospective violation, or to remedy such violation by restoring the affected property to its previous condition. Upon a showing by the Code Enforcement Officer that such person has engaged or is about to engage in any such act or practice, a permanent or temporary injunction, restraining order or other appropriate order shall be granted without bond.

#### SUBSECTION N. SEPARABILITY

If any provision of this Section or the application thereof to any person or circumstances is held invalid, the remainder of this Section and the application of such provisions to other persons or circumstances shall not be affected thereby.

#### SUBSECTION O. FEES

All Applications for design review approval shall be accompanied by a Fee as described below:

Category I - \$150.00

Renovations or new construction of significant scale that would require a normal review by the Board.

Category II - \$ 50.00

Renovations or new construction of a minor scale that would require limited review by the Board.

ARTICLE 5: Shall the Town vote to adopt the following Beach Parking Pass and Fee Policy to replace Section 404, Title IV, Public Resources and Conservation Ordinance of the Ogunquit Municipal Code as voted at the Annual Town Meeting of April 1, 1989?

- 404.1 That no motel, hotel or rooming house shall be allowed to purchase daily parking tickets; except those located easterly of the Ogunquit River estuary shall be permitted to purchase daily parking tickets for the Main Beach Parking Lot only on an as-needed basis at a cost of Four Dollars (\$4) per ticket.
- 404.2 Year-round residents and/or real property taxpayers of the Town of Ogunquit may purchase season passes for two (2) vehicles owned by said residents and/or real property taxpayers or by a member of their household; the first pass at Ten Dollars (\$10) and the second pass at Twenty-Five Dollars (\$25). Household shall include members of the same family who are related by blood or marriage and who share the same dwelling place. Town employees shall be authorized to place the passes on the vehicle(s).
- 404.3 Seasonal and monthly renters within the Town of Ogunquit may purchase the pass for one (1) vehicle owned by said renter at Fifty Dollars (\$50) upon presentation of verification of their status - which verification must be signed by their landlord or by a representative of the hotel/motel/guesthouse where they are renting. Town employees shall be authorized to place the pass on the vehicle.

ARTICLE 5: (Continued)

- 404.4 Employees of Ogunquit businesses may purchase one (1) parking pass for use at the Obeds Lane Parking Lot only at Twenty-Five Dollars (\$25) with definition and eligibility criteria to be established by the Board of Selectmen. Town employees shall be authorized to place the pass on the vehicle.
- 404.5 Daily rates at all parking lots will be Six Dollars (\$6) daily with the exception of the Obeds Lane Parking Lot which will be Four Dollars (\$4) daily; the Board of Selectmen shall have the option to charge a reduced rate of Three Dollars (\$3) until June 15, 1990 and after September 3, 1990, as weather permits, and the Town Manager shall have the authority to institute a reduced daily rate of Three Dollars (\$3) during inclement weather. The Board of Selectmen is authorized to maintain an hourly charge at the Main Beach Parking Lot in lieu of a flat rate while a mechanized parking lot control system is in operation at the lot.
- 404.6 The operator of any bus which stops in Ogunquit to discharge or pick up passengers for the purpose of using any of the Town's beaches shall be required to pay a Twenty-Five Dollar (\$25) fee for each trip. In addition, it shall be the responsibility of the operator or the owner of any such bus to give a minimum twenty-four hours notice to the Town Manager, Police Chief, or Recreation Director so that, for safety reasons, they can be directed to specific beach access points at specific access times. Ogunquit businesses which are affected by this Section may purchase a season pass for Five Hundred Dollars (\$500). Out-of-town businesses which are affected by this Section may purchase a season pass for One Thousand Dollars (\$1,000).
- 404.7 Beach parking lot passes and tickets shall be sold annually according to a time schedule established by the Board of Selectmen. Each applicant for a beach parking pass shall bear the responsibility of satisfying the requirements of this Ordinance. Vehicles registered in a company name or leased must be verifiable for assignment to the applicant before a beach pass may be issued to such a vehicle. It is the responsibility of the applicant to provide the verification upon request.

ARTICLE 6: Shall the Town vote to carry forward the following balances for use in 1990: Marginal Way Restoration Fund (\$50,000), Perkins Cove Engineering Services (\$14,965), Historic Winn House (\$3,290), Shellfish Conservation Commission (\$2,488)?

ARTICLE 7: Shall the Town vote to authorize the Board of Selectmen to accept donations for the purpose of financing improvements to Veterans Park and to authorize the Board of Selectmen to expend such funds from time to time for the purpose stated with both principal and interest included therein?

ARTICLE 8: Shall the Town vote to authorize the Board of Selectmen to accept donations to the Marginal Way Beautification Fund as established at the 1988 Annual Town Meeting and to authorize the Board of Selectmen to expend such funds for the purposes stated with both principal and interest included therein?

Reference is made to a plan entitled, "Survey of Frazier Pasture Road, prepared for the Town of Ogunquit, Ogunquit, Maine" by CIVIL CONSULTANTS, dated January 13, 1989 and revised March 1, 1990 to be recorded at the York County Registry of Deeds.

SELECTMEN'S RETURN AND CONDEMNATION ORDER

THE SELECTMEN, of the Town of Ogunquit, County of York and State of Maine, after having given seven (7) days notice of our intention to layout Frazier Pasture Road as a town way by posting notices in three (3) public places in said Town and in the vicinity of the proposed public town way and having in said notice described the way and having met in conformity with said notice, at the time and place appointed for that purpose, hereby find as follows:

A public way has existed on Frazier Pasture Road and along this property for many years. Given that there is no complete record of a town vote of a formal layout of this road, and that the public exigency requires the taking of whatever property interests remain in the vicinity of road as it is presently used and maintained, and that such a taking will remove the present defects in the Town's ownership of said road due to the lack of a formal layout and acceptance, we therefore lay out said way as follows:

SEE SCHEDULE A

And we allow to those who may have an interest in the land over which the way passes, their damages, as follows, to wit:

- (1) To James and Patricia Hartwell, the sum of \$ 1.00 .
- (2) To George Cooley, the sum of \$ 1.00 .
- (3) To Michael A. Harris, the sum of \$ 1.00 .
- (4) To William J. and Kathleen K. Lee, the sum of \$ 1.00 .
