REPORT OF CERTIFIED PUBLIC ACCOUNTANTS

Independent Auditors' Report

Board of Selectmen and Manager
TOWN OF OGUNQUIT
Ogunquit, Maine

We have audited the accompanying financial statements of the governmental activities and remaining fund information, which collectively comprise the basic financial statements, of the Town of Ogunquit, Maine as of and for the year ended June 30, 2013, as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and remaining fund information of the Town of Ogunquit and the changes in financial position and cash flows, where applicable, of those activities and funds and the budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matter

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Management Discussion and Analysis (MD&A) which is the responsibility of management, is represented for purpose of additional analysis and is not a required part of the financial statements. Such information has not been subjected to the auditing procedure applied in the audit of the financial statements and accordingly we do not express an opinion or provide any assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)

As Town Manager of the Town of Ogunquit, I offer the readers of the Town of Ogunquit's financial statements this narrative overview and analysis of the financial activities of the Town of Ogunquit for the fiscal year ended June 30, 2013. I encourage the readers to consider the information presented here in conjunction with the financial statements presented.

Financial Highlights

- The assets of the Town of Ogunquit exceeded its liabilities at the close of the most recent fiscal year by \$10,647,782 per Exhibit I (Net Position). Of this amount, \$6,377,570 (unrestricted net position) may be used to meet the Town's ongoing obligations to its citizens and creditors. The Town's total net position increased by \$573,560.
- As of the close of the current fiscal year, the Town of Ogunquit's governmental funds reported combined ending fund balances of \$6,644,763 an increase of \$1,147,745 over the prior year. The amount of \$2,597,685 is the general fund unreserved fund balance which is available for appropriation in the next budget cycle.
- The Town of Ogunquit has \$3,147,347 reserved for Capital Projects, \$428,244 reserved for Special Revenues, and \$471,487 reserved for Permanent Funds. See Note 13 for details of these funds.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic statements are comprised of three components: 1) government-wide financial statements, 2) notes to the financial statements, and 3) fund financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* (Exhibit I) presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

Government-Wide Financial Statements (Continued)

The *Statement of Activities* (Exhibit II) presents revenue and expenses and shows how the government's net position changed during the most recent fiscal year. All changes in net position are reported in a manner similar to the approach used by a private-sector business in that revenues are recognized when earned or established criteria are satisfied and expenses are reported when incurred. Accordingly, revenues are reported even when they may not be collected for several months after the end of the accounting period and expenses are recorded even though they may not have used cash during the current period.

Both of the government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation at the bottom of the fund financial statements.

Proprietary Funds

When the Town Charges customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Position and the Statement of Activities. The Town's unemployment compensation program is reported in this fund.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the Town's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required information concerning budgetary comparison of the general fund as Exhibit VII. .

Comparative Data

The tables below provides a summary of the Town of Ogunquit's net position and statement of activities for the year ended June 30, 2013, with comparative data for the previous year. Net position serves as a useful indicator of the Town's financial position. Changes in net position generally indicate the direction (positive and negative) of the Town's financial position over time.

By far, the largest portion of the Town's net position 35.9% (43.2% in prior year) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that are still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

Comparative Data (Continued)

Although the Town's investment in its capital assets is reported net of related debt, it should still be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Town's net position 4.3% (4.5% in prior year) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position \$6,342,116 represents 59.8% (\$5,250,913 or 52.2% in prior year) may be used to meet the governments' ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Town is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate government and business type activities. The same situation held true for the prior year.

Analysis of Overall Financial Position and Results of Operations

The Statement of Activities indicates that the total revenues exceeded total expenses by \$573,560 indicating a strong overall financial position for the year ended June 30, 2013.

Analysis of Significant Individual Fund Balances, Transactions and Changes in Fund Balance

General Fund

Revenues exceeded total expenditures by \$1,147,745 for the governmental funds. The CIP projects reflected total fund balance of \$3,147,347(major & non major CIP) as indicated in Note 13. General fund balance amounted to \$2,597,685. The general fund balance increased by \$415,412. While the amount of fund balance that any town needs to maintain is debatable, this amount is healthy by most standards.

Analysis of Significant General Fund Budget Variances

The general fund is the chief operating fund of the Town of Ogunquit. Revenues came in \$481,882 or 4.1% greater than expected. The actual expenditures were \$75,530 less than the proposed budget or a 0.62% variance. Accordingly, there were no significant overall variations from the original projected budgets, other than in licenses, permits and fees.

Significant Capital Asset and Long-Term Debt Activity

Capital assets net of depreciation increased by \$218,893 or 1.96%. The Town of Ogunquit’s total debt increased by \$707,763 (10.03%) during the current fiscal year.

As a comparison by State law, the Town may have a debt service not to exceed 15% of the total assessed valuation of the Town or \$1,301,390,430. The actual long term debt as of June 30, 2013 was \$7,761,117 including accrued compensated absence pay.

General Fund Budgetary Highlights

As presented in Exhibit VII, the original budgeted expenditures amount to \$12,094,771 (\$11,921,438 in prior year). The total gross budget for the year ending June 30, 2013 , including transfers to and from other funds, was \$13,236,771 (\$12,169,438 in prior year). The budgeted revenues and expenditures in Exhibit VII are net of transfers in and out to various reserve funds.

The Town department budgets were under spent by \$557,412 (\$54,143 in prior year). This results in an increase in the Town’s undesignated fund balance to \$2,597,685. This healthy surplus allows the town to use funds for a one-time expenditure such as paving or equipment purchases (Capital Improvement Items). These undesignated funds are always considered during the budget review and subsequent town meetings.

Please note the table below. The Budget is net of revenues.

YEAR	MIL RATE	BUDGET
2010	\$6.76	\$8,747,879.73
2011	\$6.88	\$8,926,552.31
2013	\$7.31	\$9,461,169.45
2013	\$7.31	\$9,525,177.00
2014	\$7.50	\$9,845,896.78

Currently Known Facts

The currently known facts expected to affect the future financial position or the operations of the Town are as follows:

- The Operating Budget for fiscal Year 2014 was approved at the Annual Town Meeting held on June 11, 2013. The budget focused on equipment purchases and many capital improvement projects were funded.
- The Town has received notification from the Maine Department of Transportation that we have received priority funding of \$7,000,000 for our Route One paving, drainage, and sidewalk project. Because of our collaboration and diligence with other governmental groups this will best leverage the \$2,000,000 in federal grant money the Town received for the sidewalk project, which will now stretch from town line to town line. It is our hope that this project will begin in the spring of 2015.
- Towns in York County are being asked to pay an additional \$8,000,000 to cover a six month transitional period as County Government transitions from a calendar year to a fiscal budget year starting July 1 through June 30. For Ogunquit, this means an additional half year payment of \$340,000 in County taxes in the upcoming months. This is significant issue because tax payments see our share of the annual County bill reflected in their property taxes.

Requests for Information

The Town of Ogunquit is truly fortunate to have such high caliber individuals serving on its various Boards and Committees. The Board of Selectmen would like to thank all members of the community who serve on the aforementioned committees and boards. Without the commitment from these important individuals, the Town simply could not function. Special thanks are due to all of the members of the municipal staff who continue to make Ogunquit the *Beautiful Place by the Sea!*

This financial report is designed to provide users with a general overview of the Town of Ogunquit's finances. FOR THE YEAR ENDED JUNE 30, 2013**

Net Change in Fund Balance – Total Governmental Funds \$1,147,745

**Amounts Reported for Governmental Activities in the Statement of
Net Position are Different Because:**

Governmental Funds Report Capital Outlays as Expenditures. However, in the Statement of Activities the Cost of Those Assets is Allocated over Their Estimated Useful Lives and Reported as Depreciation Expense. This is the Amount of Capital Assets Recorded in the Current Period 668,972

Depreciation Expense on Capital Assets is Reported in the Government-Wide Statement of Activities and Changes in Net Position, But They Do Not Require the Use of Current Financial Resources. Therefore, Depreciation Expense is Not Reported as Expenditure in Governmental Funds (450,079)

The Issuance of Long-Term Debt (e.g. Bonds, Leases and Accrued Compensated Absence Pay) Provides Current Financial Resources To Governmental Funds, While the Repayment of the Principal of Long-Term Debt Consumes the Current Financial Resources of Governmental Funds. Neither Transaction, However, has Any Effect on Net Position. Also, Governmental Funds Report the Effect of Issuance Cost, Premiums, Discounts, and Similar Items When Debt is First Issued, Whereas the Amounts are Deferred and Amortized in the Statement of Activities. This Amount is the Net Effect of These Differences in the Treatment of Long-Term Debt and Related Items (707,763)

Some Property Tax Will Not be Collected for Several Months After the Town's Fiscal Year End; They are Not Considered "Available" Revenues in the Governmental Funds. This Amount is the Net Effect of the Differences (95,000)

Accrued Interest Expense on Long-Term Debt is Reported in the Government-Wide Statement of Activities and Changes in Net Position, But Does Not Require the Use of Current Financial Resources; Therefore, Accrued Interest Expense is not Reported as Expenditures in Governmental Funds (4,707)

TOWN OF OGUNQUIT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. – General Statement

The Town of Ogunquit, Maine was incorporated as the Ogunquit Village Corporation in 1913 and later became the Town of Ogunquit by an act of the Legislature in 1980 under the laws of the State of Maine. The Town currently operates under a Selectmen/Town Manager Form of Government.

The accounting and reporting policies of the Town relating to the funds and account groups included in the accompanying basic financial statements conform to generally accepted accounting principles as applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), the American Institute of Certified Public Accountants in the publication entitled *Audits of State and Local Governmental Units* and by the Financial Accounting Standards Board (when applicable). As allowed in Section P80 of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, the Town has elected not to apply to its proprietary activities Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee of Accounting Procedure issued after November 30, 1989. The more significant accounting policies of the Town are described below.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Certain of the significant changes in the Statement include the following:

The financial statements include:

- A Management Discussion and Analysis (MD&A) section providing an analysis of the Town's overall financial position and results of operations.
- Financial statements prepared using full accrual accounting for all of the Town's activities.
- A change in the fund financial statements to focus on the major funds.

These and other changes are reflected in the accompanying financial statements including notes to financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. – Financial Reporting Entity

The Town's combined financial statements include the accounts of all Town of Ogunquit operations. The criteria for including organizations as component units within the Town's reporting entity, as set forth in Section 2100 of GASB's Codification of Governmental Accounting and Financial Reporting Standards, include whether:

- The organization is legally separate (can sue and be sued in their own name)
- The Town holds the corporate powers of the organization
- The Town appoints a voting majority of the organization's board
- The Town is able to impose its will on the organization
- The organization has the potential to impose a financial benefit/burden on the Town
- There is fiscal dependency by the organization on the Town

Based on the aforementioned criteria, the Town of Ogunquit has no component units that are not included in this report.

C. – Basic Financial Statements – Government-Wide Statements

The Town's basic financial statements include both government-wide (reporting the Town as a whole) and fund financial statements (reporting the Town's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column (b) and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Town's net position are reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position. The Town first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the Town's functions. The functions are also supported by general government revenues (property taxes, certain intergovernmental revenues, charges for services, etc). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function or a business-type activity. Operating grants include operating-specific and discretionary (whether operating or capital) grants while the capital grants column reflects capital-specific grants. The net costs (by function) are normally covered by general revenue (property taxes, intergovernmental revenues, interest income, etc).

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. – Basic Financial Statements – Fund Financial Statements

The financial transactions of the Town are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets, liabilities, reserves, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements. The following fund types are used by the Town:

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the Town:

General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds).

Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs, that is, for the benefit of the government or its citizenry. A permanent fund would be used, for example, to account for the perpetual care endowment of a municipal cemetery.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the Town of Ogunquit:

Enterprise Funds are required to be used to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has a third party requirement that the cost of providing services, including capital costs, be recovered with fees and charges or (c) establishes fees and charges based on a pricing policy designed to recover similar costs. The Ogunquit Unemployment program operates in a manner similar to private business enterprises. The intent is that costs for these services provided to the employees on a continuing basis be recovered through fees.

JUNE 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. – Basic Financial Statements – Fund Financial Statements (Continued)

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

E. – Measurement Focus/Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. A one-year availability period is used for recognition of all other governmental fund revenues. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

Operating revenues and expenses for proprietary funds are those that result from providing services and producing and delivering goods and/or services. It also includes all revenue and expenses not related to capital and related financing, noncapital financing, or investing activities.

F. – Budgetary Control

Formal budgetary accounting is employed as a management control for the general fund of the Town of Ogunquit. The Town of Ogunquit's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

**TOWN OF OGUNQUIT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. – Budgetary Control (Continued)

The following procedures are followed in establishing budgetary data reflected in the financial statements:

1. During the second half of the last fiscal year the Town prepared a budget for this fiscal year beginning July 1st. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the inhabitants of the Town of Ogunquit was then called for the purpose of adopting the proposed budget after public notice of the meeting was given.
3. The budget was adopted subsequent to passage by the inhabitants of the Town.

The Town does not adopt budgets for the Special Revenue Funds.

G. – Cash

Maine statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, repurchase agreements and certain corporate stocks and bonds. Generally, the Town invests certain funds in checking, savings accounts or certificates of deposit.

The Town has defined cash and cash equivalents to include cash on hand, demand deposits, and investments in money market funds.

H. – Capital Assets

Capital assets purchased or acquired with an original cost of \$10,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings and Improvements	15-40 Years
Machinery and Equipment	5-12 Years
Vehicles	5-10 Years

The Town of Ogunquit has elected not to retroactively report major general infrastructure assets.

I. – Compensated Absences

The Town of Ogunquit recognizes accumulated leave compensation during the period in which the related liability is incurred. In compliance with Town personnel policies the liability for accrued compensated absence pay was \$161,674 at June 30, 2013.

**TOWN OF OGUNQUIT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

J. – Interfund Activity

Interfund activity is reported as either loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

K. – Equity Classifications

Government-Wide Statements

Net position represent the differences between assets and liabilities. Equity is classified as net position and displayed in three components:

- Net investment in capital assets – consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- Restricted net position – consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- Unrestricted net position – all other net positions that do not meet the definition of “restricted” or “net investment in capital assets.”

Fund Statements

Governmental fund equity is classified as fund balance. In the governmental fund financial statements, fund balances are classified as nonspendable, restricted, or unrestricted (committed, assigned or unassigned). Restricted represents those portions of fund balance where constraints placed on the resources are either externally imposed or imposed by law through constitutional provisions or enabling legislation. Committed fund balance represents amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Selectmen, such as an appropriation. Assigned fund balance is constrained by the Board’s intent to be used for specific purposes by directive. See Note 13 for additional information about fund balances.

TOWN OF OGUNQUIT
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2013

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. – Use of Estimates

Preparation of financial statements in conformity with GAAP requires the use of management's estimates and assumptions. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

NOTE 2 – CASH AND CASH EQUIVALENTS

Maine statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements and certain corporate stocks and bonds. Generally, the Town invests such excess funds in checking accounts, savings accounts, certificates of deposit and U.S. government obligations (through an investment group owned by a financial institution).

A. Deposits

The Town's deposits are categorized as follows to give an indication of the level of risk assumed by the Town at year end: Category 1 includes deposits covered by federal depository insurance or by collateral held by the Town or by the Town's agent in the Town's name; Category 2 includes uninsured deposits covered by collateral held by the pledging financial institution's trust department or agent in the Town's name; Category 3 includes uninsured and uncollateralized deposits.

At June 30, 2013, all cash and cash equivalents consisted of Category 1 deposits.

NOTE 3 – PROPERTY TAXES

The Town is responsible for assessing, collecting and distributing property taxes in accordance with enabling state legislation. The Town of Ogunquit's property tax is levied on the assessed value listed as of the prior April 1st for all taxable real and personal property located in the Town. Assessed values are periodically established by the Assessor at 100% of assumed market value. The assessed value for the list of April 1, 2012, upon which the levy for the year ended June 30, 2013, was based, amounted to \$1,301,390,430. The assessed value was 102.3% of the 2013 State valuation of \$1,272,150,000.

The Town is permitted by the laws of the State of Maine to levy taxes up to 105% of its net budgeted expenditures for the related fiscal period. The amount raised in excess of 100% is referred to as overlay and amounted to \$35,186 for the year ended June 30, 2013.

All property taxes are recognized in compliance with NCGA Interpretation – 3, *Revenue Recognition – Property Taxes* which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due and receivable within the current period and collected no longer than 60 days after the close of the current period.

Tax liens are placed on real property within twelve months following the tax commitment date if taxes are delinquent. The Town has the authority to foreclose on property eighteen months after the filing of the lien if tax liens and associated costs remain unpaid. The following summarizes the 2012 - 2013 levy:

NOTE 6 – DEFINED PENSION PLAN

Deferred Compensation Plan

The government offers its employees two deferred compensation plans through John Hancock Insurance, created in accordance with Internal Revenue Code Section 457, and the Maine Public Employees Retirement System. The John Hancock Plan, available to all government employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

John Hancock Insurance Pension Plans

The Town has two pension plans with John Hancock Insurance. The Plans covers all full-time employees who are at least 18 years of age and have met certain service requirements. Employees become fully vested upon entering the Plan.

Under the terms of the Plan 1 - 401k Plan, the Town contributes 8% of the participating employees' annual compensation. Plan 2 - 457 Plan, for department heads the Town contributes a matching 3% of the participating employees' annual compensation. There are no allocation requirements to receive any contribution made to the plan. Participants shall have a fully vested and nonforfeitable interest in Employer Contributions and their investment earnings. The Participant shall be responsible for the investment of his or her Plan account.

The Town's total covered payroll was \$1,283,176 for the year ended June 30, 2013.

<u>Year Ended</u>	<u>Contributions</u>

NOTE 6 – DEFINED PENSION PLAN (CONTINUED)

Maine Public Employees Retirement System

Certain employees of the Town participate in the Maine Public Employees Retirement System ("System"). Employees participating in the Maine Public Employees Retirement System are eligible for normal retirement upon attaining the age of sixty and early retirement after completing twenty to twenty-five or more years of creditable service depending upon plan documents.

Under the plan, participants contribute 6.5% of compensation. Total pension expense for the Town for the year was \$161,296. The total covered payroll for the Town was approximately \$1,582,396 for the year ended June 30, 2013.

Information concerning the consolidated pension plan is available from the System. The percentages and contributions to the plan for past years are as follows:

<u>Year Ended</u>	<u>% Contributed</u>	<u>Contributions</u>
June 30, 2013	5.3% - 12.5%	\$ 161,296
June 30, 2012	4.4% - 10.2%	\$ 126,707
June 30, 2011	3.5% - 8.1%	\$ 93,311

A. Plan Description

Town employees contribute to the Maine Public Employees Retirement System, an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for public school teachers, state employees (except as members of the judiciary and legislature who are covered under the Judicial and Legislative Retirement Systems) and political subdivisions.

Several Town employees participate in the System. Benefits vest after five years of service. Participants who retire at or after age 60 with 20 - 25 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 2% of the average of their highest three year earnings per year of service.

The System also provides death and disability benefits. These benefit provisions and all other requirements are established by State statute.

Employees are required to contribute 6.5% of their annual salary to the System. The Town contributes the remaining amounts necessary to fund the System, using the actuarial basis specified by statute.

B. Funding Status and Progress

Information concerning the pension benefit obligation for Town employees is available from the System.

NOTE 7 – INTERFUND ACTIVITY

Interfund balances at June 30, 2013, consisted of the following:

Due To

Non-Major Governmental Funds:

Special Revenues	\$ 25,000
Capital Project Funds	<u>926,587</u>
Total	<u>\$951,587</u>

Due From

General Fund	<u>\$951,587</u>
--------------	------------------

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers for the year ended June 30, 2013, consisted of the following:

Transfer To

Non-Major Governmental Funds:

Special Revenues	\$ 70,000
Capital Project Funds	1,057,000
Enterprise Fund-Unemployment	<u>15,000</u>
Total	<u>\$1,142,000</u>

Transfer From

General Fund	<u>\$1,142,000</u>
--------------	--------------------

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 8 – RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the Town carries commercial insurance.

NOTE 8 – RISK MANAGEMENT (CONTINUED)

There have been no significant reductions in insurance coverages during the fiscal year and no significant settlements that exceeded insurance coverage.

NOTE 9 – APPROPRIATIONS AND TRANSFERS

At the Annual Town Meeting on June 12, 2012 and the Special Town Meeting on November 6, 2012, the Townspeople voted appropriations of general fund balance totaling \$142,000, which are reflected as the excess of budgeted expenditures over budgeted revenues on Exhibit VII for the year ended June 30, 2013.

NOTE 10 – JOINT VENTURE

In 1985, the Town entered into a joint venture known as Ecomaine. Ecomaine provides solid waste disposal services to participating communities. The governing bodies of the participating communities appoint the Board of Directors who establishes the budget and charges the communities and commercial enterprises that use the facility.

The Town's proportionate share of ecomaine Municipal Recycling Facilities' outstanding debt is not recorded in the financial statements of the Town of Ogunquit. The following is a statement from Ecomaine:

Ecomaine is a solid waste management corporation serving 40 municipalities in Cumberland, Oxford, and York counties in Maine. Owned and controlled by 21 member communities, ecomaine creates electricity through its processing of waste and also operates an extensive recycling program. The town is a member community in ecomaine. Interlocal (waste handling) agreements between ecomaine and participating communities obligate the members to deliver certain solid waste produced within the community to ecomaine for processing and to make service payments and pay tipping fees for such processing. The Town has no explicit, measurable equity interest and therefore has not reported an asset in these financial statements in connection with its participation in ecomaine. Selected information for ecomaine for the year ended June 30, 2013 unaudited includes an accrual for landfill closure and post closure care amounting to \$15,951,072. Ecomaine has a plan to fund this liability in the form of a cash reserve over the period of years between 2011 and a projected closing date. The share of costs for Ogunquit is estimated at 2.82% or \$449,945 at June 30, 2013.

NOTE 11 - OVERLAPPING DEBT

The Town's proportionate share of Community School District No. 18's debt is not recorded in the financial statements of the Town of Ogunquit. The overlapping debt as of June 30, 2013 was not available before release of this report. Prior year's overlapping debt for year ended June 30, 2012 amounted to \$2,102,968 for the Town's share of 22.09% of the District's total outstanding debt of \$9,520,000.

The Town's proportionate share of York County's debt is not recorded in the financial statements of the Town of Ogunquit. Per the December 31, 2012 County of York audited financial statements, the Town's share was 4.33% (\$458,430) of the County's outstanding debt of \$10,587,302.

NOTE 12 - CONTINGENT LIABILITIES

There are various claims pending against the Town of Ogunquit which arise in the normal course of the Town's activities. Several cases are currently pending which in the aggregate may or may not have a material effect on the financial position of the Town. In the opinion of the Town Counsel, it is extremely difficult to assess the extent or probability of the Town's liability at the present time.

The Town participates in certain federal and state assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. Any liability for reimbursement, which may arise as the result of these audits, is not expected to be material.

NOTE 13 – GOVERNMENTAL FUND BALANCES

Previously, the Town implemented the following accounting standard issued by the Governmental Accounting Standards Board (GASB):

- GASB Statement 54, Fund Balance Reporting and Governmental Fund Type Definitions.

GASB Statement 54 clarifies the existing governmental fund type definitions and provides clearer fund balance categories and classifications. The hierarchical fund balance classification is based primarily upon the extent to which a government is bound to follow constraints on resources in governmental funds and includes the terms: nonspendable, committed, restricted, assigned, and unassigned.

The Town's fund balances represent: **(1) Nonspendable Fund Balance**, resources that cannot be spent because of legal or contractual provisions that require they maintained intact. (e.g. the principal of an endowment). **(2) Restricted Purposes**, which include balances that are legally restricted for specific purposes due to constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; **(3) Committed Purposes**, which include balances that can only be used for specific purposes pursuant to constraints imposed by formal action of the Board of Selectmen; **(4) Assigned Purposes**, which includes balances that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed. **(5) Unassigned Fund Balance**, net resources in excess of what is properly categorized in one of the four categories already described. A positive amount of unassigned fund balance will never be reported in a governmental fund other than the general fund, because GASB Statement 54 prohibits reporting resources in another fund unless they are at least assigned to the purpose of that fund. However, funds other than the general fund could report a negative amount of unassigned fund balance should the total of nonspendable, restricted and committed fund balance exceeds the total net resources of the fund.

The Town of Ogunquit has the responsibility for committing fund balance amounts and likewise would be required to modify or rescind those commitments.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed. When committed, assigned, and unassigned resources are available for use, it is the Town's policy to use committed or assigned resources first, then unassigned resources as they are needed.

NOTE 14 – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. - Budgetary Accounting

The Town of Ogunquit utilizes a formal budgetary accounting system to control revenues and expenditures accounted for in the General Fund. This budget is established by the Board of Selectmen and must be approved at the Annual Town Meeting.

B. - Excess of Expenditures over Appropriations

For the year ended June 30, 2013, expenditures did not exceed appropriations. Exhibit VII shows no overdrafts.

C. - Deficit Balances

Generally accepted accounting principles require disclosure of individual funds that have deficit balances at year-end.

As of June 30, 2013, no individual funds held a deficit balance.

NOTE 15 – DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

All governments with periods beginning after December 15, 2011 are required to implement the following statements:

GASB No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position and GASB No. 65, Items Previously Reported as Assets and Liabilities.

GASB 63 and GASB 65 amend GASB 34 to incorporate deferred outflows of resources and deferred inflows of resources into the financial reporting model. These terms are defined as follows:

Deferred Outflows of Resources - a consumption of net position by the government that is applicable to a future reporting period. It has a positive effect on net position, similar to assets.

Deferred Inflows of Resources - an acquisition of net position by the government that is applicable to a future reporting period. It has a negative effect on net position, similar to liabilities.

The GASB emphasizes in GASB 63 that deferred inflows and deferred outflows are not assets or liabilities and therefore should be separately categorized in the financial statements.

GASB 65 clarifies which financial statement items should continue to be presented as assets and liabilities and which should be reclassified as deferred outflows and deferred inflows, and which items should be treated as current period expenditures (outflows) or current period inflows.

The term “Net Assets” has been replaced with the term “Net Position” on the face of the statements. For governmental, proprietary and fiduciary statements, the residual amount remaining after the effects of assets plus deferred outflows less liabilities and deferred inflows has been referred as Net Position rather than Net assets, Proprietary, or Fiduciary Fund Balance or equity.

The previously component of net assets title “Net Assets Invested in Capital Net of Related Debt” is now named “Net Investment in Capital Assets.” It also changed the calculation of that amount to include the effects of deferred outflows and inflows related to the acquisition, construction or improvements of those related capital assets. Lastly, it removes the portion of debt or deferred inflows related to unspent proceeds of those capital related financing transactions from the calculation of Net Investment in Capital Assets.

There are no deferred outflows or inflows of resources listed at June 30, 2013 for the Town of Ogunquit.

NOTE 16 – DATE OF MANAGEMENT’S REVIEW

Management has evaluated subsequent events through September 26, 2013 the date of which the financial statements were available to be issued.
